

SYLPRIN

MINING SERVICES

Sylprin is a group of multi-disciplinary professional consultants and contractors with its head office in Accra, Ghana and undertakes operations all over Ghana and West Africa. Sylprin has been established as a result of a growing need in the market for specialists and professionals in the areas of Mining Support Services, procurement and environmental health and safety.

Mission

Our mission is to provide cost effective, coherent and robust solutions to all enquiries to the satisfaction of the client.

Vision

Sylprin aims at becoming the leading independent specialist in our field of services in Ghana and the rest of West Africa

About Us

Sylprin provides practical guidance to assist companies in finding the right solutions for their establishments. We pride ourselves in the delivery of successful projects to our clients to current health, safety and environmental legislation.

Classified by the Minerals Commission, Petroleum Commission, Ghana National Fire Service, Ministry of Water Resources Works & Housing, Ministry of Road & Highways and Energy Commission.

We have established strategic Joint Venture partnership with renowned firms (with ABS, DVN-GL, Lloyds, BV, Class-NKK, etc Certifications/ Approval) and suppliers in the Mining Industry.

Our Team

We have a strong staff base made up of Project Managers, Engineers as well as technicians to handle all aspects of our operations.

Together with our Foreign Partners and Suppliers we assure our clients of standard designs and quality installations.

Our bilateral trade partners provide technical support and in some cases expatriate Specialist Engineers to undertake installations.
